

PROJECT REPORT

Planning and Design of a School Campus

Submitted by: Aditya Verma

IIT Kharagpur | 2025

1. Project Objective

This project focuses on creating a well-organized school building that maximizes space efficiency and facilitates seamless movement for students and staff. The goal is to tackle practical challenges by integrating key facilities such as classrooms, laboratories, administrative offices, and sports areas, all while prioritizing accessibility and safety. The design emphasizes strategic corridor layouts and provisions for future expansion to accommodate both educational and extracurricular activities.

2. School Layout and Division of Areas

The campus is organized into the following functional zones:

- Administration Building - G+2 floors
- Science Department - G+2 floors
- Arts and Commerce Department - G+2 floors
- Primary School - G+2 floors
- Secondary School - G+2 floors
- Canteen Area
- Sports Ground
- Car and Bus Parking

Sports Facilities

- Football Ground
- Cricket Ground
- Badminton Court
- Basketball Court

3. Dimensions

All dimensions are in meters.

Academic Block

Facility	Dimensions (m)
All Classrooms	7 x 7
All Labs	12 x 7

Administrative Building - Level 0

Facility	Dimensions (m)
Accounts Office	15 x 7
Administration Office	15 x 7
Transportation Office	13 x 7
Girls and Boys Washroom	7 x 7
Store Room	12 x 7

Administrative Building - Level 1

Facility	Dimensions (m)
Principal Room	20 x 7
Vice Principal Room	20 x 7
Counsellor Office	13 x 8
Conference Room	20 x 10
Girls and Boys Washroom	7 x 7

Administrative Building - Level 2

Facility	Dimensions (m)
Control Room	26 x 12

Building Footprints

Facility	Dimensions (m)
Administrative Building	27 x 56
Auditorium	46 x 41
Science Department	53 x 20
Arts and Commerce Department	53 x 20
Primary School Building	53 x 20
Secondary School Building	53 x 20
Canteen	50 x 20
Car Parking	43 x 20

Bus Parking	60 x 20
Overall Campus	435 x 345

4. Conclusion

In conclusion, this mini project presents a well-planned school campus that effectively caters to the needs of a 10+2 educational system. By strategically organizing academic departments and incorporating essential facilities, the design ensures a balanced environment for learning and overall development. The inclusion of well-ventilated classrooms, dedicated spaces for science, arts, and commerce, and a separate primary and secondary school division fosters a structured academic setting. Additionally, the provision of extensive sports facilities — including football and cricket grounds, badminton and basketball courts — promotes physical fitness and extracurricular engagement. Green spaces, walkways, and ample parking further enhance accessibility and sustainability. Overall, this school design prioritizes functionality, safety, and student well-being, creating an ideal environment for holistic growth and future readiness.
